WALL STREET, TUESDAY, Oct. 15-6 P. M. On 'Change to-day cotton was irregular, being firmer for "spot" and easier for "future." Flour and wheat were in good demand and steady, while corn was only in moderate request, but firmer.

THE EXPORTS OF THE WEEK.

The total exports of domestic merchandise from this port for the week ending October 15, 1872, were \$6,114,056.

MONEY 6 A 2 PER CENT. There was a still further relaxation in the rates for money on call, the extremes of the day having been 6 and 2 per cent. The first quotation on stocks was 5 a 6 per cent, and thence a gradual decline to 2 a 3 per cent, a rally to 5 a 6 per cent, and closing dealings at 4 per cent. The better class of stock brokers were readily accommodated all day at 4 a 5 per cent. The surprising ease in money gave rise to, or rather revived, a rumor that the Treasury Department had issued a part of the old LEGAL TENDER RESERVE.

created for the redemption of special deposits and the cancellation of the three per cents. The only basis for the rumor is the appearance incirculation of a number of crisp new greenbacks, which may have been, and undoubtedly were, issued in the process of changing the design of the legal tender currency Mercantile paper is quoted 9 a 12 per cent discount. Foreign exchange was weaker but nominally unchanged, the leading drawers continuing to ask 103% for prime sixty-day sterling

and 110% for sight bills. THE LONDON MARKET

was the object of a great deal of solicitude on ac count of rumors that there would be an extra meeting of the directors of the Bank of England in the morning to consider the propriety of a further advance of the discount rate. This rumor was combated by the early strength of consols, but ness, although other securities appeared unchanged or better, our five-twenties being steady and Erie higher and strong. The street quotation for money In London is reported to have hardened to 5% a 5% per cent-a rate which does not invite any alteration of the Bank minimum, at least in the upward direction. It was settling day to-day at the London Stock Exchange for accounts in consols.

GOLD FIRMER-112% A 112%. Gold was firmer on the matters and rumors al-ready adverted to, the apprehension of a raising of the Bank of England rate being more operative, however, than the story about a new issue of greenbacks. The price advanced two points, to 112%, but fell off again to 11234 on the Custom House re port of the very flattering amount of exports for the week from this port, the total of which expeeded six millions of dollars. The weaker tone of the foreign exchanges helped also to bring about this little reaction. The market is merely

ers outside the Board. The fates are all against igher gold and the price is too low down to make it worth the trouble of a "short" operation. In this view of the situation of the market there is little attention paid to its fluctuation except by the mercantile interest, to whom it is always of lively importance. As for the host of operators "the game isn't worth the candle." The Sub-Treasury paid out \$30,000 on account of interest and \$2,000 on account of redeemed five-twenties. The

STOCKS EXCITED AND UNSETTLED. -The stock market ran a further course of excited activity until checked by sales to realize the profits of the recent remarkable advance in prices, when its serried columns of rising quotations were thrown into confusion, and a fitful and irregular speculation ensued, some of the "bulls" holding on tenaciously to certain specialties, while others grew demoralized and yielded to the temptations of a turn, especially as their flanks were worried by the "bears," who, in the belief that the tide had changed, were gleefully hammering the

SOFT SPOTS OF THE MARKET. But this steam was not turned off until a late hour in the day. Meantime the heat of the movement had made such prices as 147 for Panama, 92% for Lake Shore, 74% for Wabash, 77% for Western Union Telegraph, 52% for Erie, 112% for Rock Island and 47 for Ohios. The party most generally credited with overturning the apple-cart to-day is Jay Gould, who, being a "buil" of very large horns ever since he got an inkling of what the government was going to do, and did do a week ago Monday, has made a lucrative exchange of his position as regards the market. It seems that on the very Saturday when Gould got word of the government's intentions

SMITH WAS AT THE RACES at Jerome Park and got back to town too late to cover his "shorts." As Gould was his bosom friend, Henry felt aggrieved that Jay had not done for him as a friend should do; the coolness grew into animosity, and the parties in a few days had become enemies. Latterly mutual friends have been trying to reconcile them, and their good offices have resulted, it is thought, in bringing

them together again, Jay agreeing to sell his stocks and break the market so as to let Henry cover his remaining "shorts" and get in the "buil" boat. This theory was offered in explanation of the heavy sales of stock by

JAY GOULD'S BROKERS.

What lines Smith is "short" in is not so very clear to the street, for, while it is fancied that his speculative contracts are largest in Pacific Mail. dent of the Pacific Mail Steamship Company" is not so easily comprehended. As to Pacific Mail, the pool held it firm throughout the day and closed it up at 87, as if the programme were to advance it one per cent a day. Thus, yesterday it ranged from 85 to 86, to-day from 86 to 87, and to-morrow-("You never can tell till you bet.") The reaction and decline were also assisted by the rumors of a proposed further raising of

THE BANK OF ENGLAND discount rate in the morning, and in the flurry and excitement which attended the "break" at this period of the any, Wabash fell to 72 and the whole market from & to % per cent. Finally there was a rally in Wabash to 73% and a counterreaction generally, which had the effect of leaving the "bulls" afraid of another "break," and the "bears" apprehensive that the whole thing had been "a op" for their special victimization. The rise in

Wabash was connected with the rumored return of the veteran

In ome departments business continues to languish, but a more buoyant tone and an increasing health fulness is apparent in most departments of trade. The absence of violent fluctuations in the gold premium is being favorably and conspicuously The Philadelphia market was inactive and nominally unchanged; refined quoted at 25%c. for spot or month.

Paovinions.—Receipts—Pork, 45 bbls.; cut meats, 100 packages; lard, 992 bbls and tierces. The market for mess pork was firmer at the opening, but subsequently closed steady. Sales were reported of 500 bbls. at \$14 50 cash, 1,000 bbls, sellers October, at \$14 55, and late last evening 500 bbls. for November at \$14 50. In tobbing lots about 250 bbls. changed hands, at \$14 00 a \$14 65 for mess, \$13 75 for prime mess and \$12 for newly inspected extra mess. Bacon remained quiet, but firm. Sales 50 boxes of long clear at 9c. cash and 100 boxes do. for November delivery at 9c. Dressed hogs were in demand and decidedly firmer; quoted for extremes at 7c. a 7%c for heavy to pigs. Beef—There was a moderate lobbing trade in bbls., with 50 taken at prices within the range. Tierce beef remained quiet and unchanged. We quote:—Ress, \$5 a \$10, extra do., \$10 a \$12, prime mess incres, \$13 a \$13, and India mess do., \$17 a \$20; beef hams were quiet and with the exception of a limited jobbing trade we learned of no transactions of importance. Lard—The market for Western was rather weak at the close, particularly for old; sales 500 tierces, at \$3%c.; 750 theroes for October at 8%c., and 260 tierces new (to arrive) at \$%c. City lard was quiet and casier, sales 100 tierces, at 8%c. a 8%c.; offered freely at the close at inside price.

Sucas.—The demand for raw continued fair, and full former prices were realized. The sales foot up 1,151 hhds. ranging from 8c. a \$%c.; 200 boxes, principally clayed, at \$%c. a \$%c.; and 6,000 bags of Pernambuco at \$%c. and \$%c.; air to good fair, \$%c. a 9c.; good to prime, \$%c.; a \$%c.; air to good fair, \$%c. a 9c.; good to prime, \$%c.; a \$%c. a \$%c.; or prime, to choice, \$%c.; an in, inferior to common, \$6. a \$%c.; offered recommon \$6. a \$%c.; offered common, \$6. a \$%c.; air to good fair, \$%c. a 9c.; good to prime, to choice, \$%c.; an in, inferior to common, \$6. a \$%c.; offered common, \$6. a \$%c.; o reflected in commercial circles, and confidence is again manifest in a greater disposition to effect transactions. The hesitancy caused by the sudden collapse of the gold premium a week or so ago is wearing off, and from prevailing indications business will soon be as active as it was before the government officials concluded to give shape to the monetary and commercial affairs of the country. Left to itself, trade will, without doubt, soon assume its wonted activity, and the Fall business will be large, in spite of the adverse influences which obtain. On 'Change business was more active, and of such a character as to evince renewed confidence in the future. Cotton was active, and prices were again higher, under a paucity of supplies. Flour was more active than for some time past, and considerable purchases were made for shipment, both on the spot and forward delivery. Wheat was in fair request and prime was firm. The corn market was quiet, the demand being checked by a further advance in
